

BOOKINGS

WITH ODETTE NIGHTSKY

Hello and Welcome

Please follow the steps on the right to book and confirm your session.

In the initial Skype session I usually take about 10-15 minutes to feel your resonance and wounds. This is the time you can share your story and ask questions. Then we move into what needs to be addressed as I want to make the best use of your time. I work along side my spirit kin and its usually a combination between what they feel to share and my guidance towards your recipe of wellness.

Feel free to record the session and share absolutely anything, no matter how strange, traumatic or far out it sounds. There is no judgement in how far your vision or experience goes. I have tools and techniques that will help where you are at as well as powerful shamanic Inner journey work that can be done on Skype as long as you can find a comfortable position to lean back and keep the screen supported.

I look forward to being of service to your growth

Blessings
Odette Nightsky
